

## Job Title: Production Operator

---

### Job Description

Global Security Devices (GSD) based in Dublin designs and manufactures both wired and wireless security products for the Irish and European markets; GSD has an opportunity for a Production Operator based at the company's head office in Ballymount, Dublin 22.

The successful candidate will work as part of a small multidisciplinary team and will support all GSD's internal and outsourced manufacturing activities. The role involves working on GSD's access control and intruder alarm products through final assembly, test and packaging.

The successful candidate will carry out the following duties.

- Functional testing.
- Final product assembly, packing and shipping.
- Building, testing and debugging hardware prototypes.
- Maintaining the area and equipment within the production environment.
- Contributing to manufacturing process improvement.
- Other production and technical tasks that may be required from time to time.

Product quality and reliability are paramount.

### Technical Requirements

- Certificate in Electronic Engineering required – Diploma an advantage.
- Experience in an electronic manufacturing environment.
- Experience in PCB debugging an advantage.
- SMT solder repair skills an advantage.
- Excellent attention to detail required.
- Strong interpersonal skills and self-motivated.
- Ability to follow work instructions and test procedures.
- Ability to work well in a team.
- Experience working in an ISO 9001 accredited company an advantage.
- Conscientious and enthusiastic.

GSD is an equal opportunity employer.
